

Joey Amory, DVM, DACVR

Dr. Amory works full-time for IDEXX Telemedicine Consultants. He grew up in Charlottesville, VA, where he was active with 4-H and competed in dressage with his warmblood and Morgan horses. He is a graduate of Virginia Tech and received his veterinary degree from Virginia-Maryland College of Veterinary Medicine. Prior to his radiology residency at the University of Pennsylvania, he completed an equine sports medicine/imaging internship at Virginia Equine Imaging and a small-animal imaging internship at Ross University. He spends his free time traveling and enjoying outdoor activities.

Ryan Appleby DVM, DACVR

Dr. Appleby grew up in Toronto and received an undergraduate degree from the University of Western Ontario. He then attended the Ontario Veterinary College (OVC). Following veterinary school, he completed a rotating internship at OVC and an imaging internship at Veterinary Imaging Center of San Diego (CA) before completing a residence at North Carolina State University. Dr. Appleby became board certified in 2019 and joined IDEXX Telemedicine Consultants in January 2020. He lives in Ontario and enjoys spending time outdoors, hiking, playing hockey, and playing guitar.

Jamie Atherton, DVM, MS, DACVR

Dr. Atherton was born and raised in Connecticut. He graduated from the University of Connecticut with a double major in animal science and pathobiology (1997) and a master's degree in pathobiology (2002). Dr. Atherton attended veterinary school at the Atlantic Veterinary College at the University of Prince Edward Island, Canada. After graduating in 2006, he completed a rotating internship at the Veterinary Referral and Emergency Center in Norwalk, CT. He practiced emergency medicine for 2 years after his internship before being accepted into the joint diagnostic imaging residency at the Animal Medical Center of New York and Cornell University. In early 2014, after completing his residency, Dr. Atherton moved to Oahu, HI, where he currently resides with his wife and twin boys.

Tasha Axam DVM, DACVR

Dr. Axam is a native of Atlanta, GA, and holds a BS in psychology and biological anthropology and anatomy from Duke University. She received her DVM degree from Tuskegee University School of Veterinary Medicine in 2004. In 2005 she completed her 1-year rotating internship at Purdue University School of Veterinary Medicine. She went on to complete her residency in diagnostic

imaging at the University of Georgia School of Veterinary Medicine in 2008. In September 2008, Dr. Axam completed the oral and written exam for diagnostic imaging and radiology, becoming a board-certified radiologist and a member of the American College of Veterinary Radiology. Shortly afterward, she joined the staff at Saint Francis Veterinary Specialists. Dr. Axam has a love for exotic species and hopes to eventually volunteer her free time helping animals in places like Africa, Australia, and South America.

Yseult Baeumlin, DVM, DECVDI

Dr. Baeumlin is a native of Strasbourg, France, and graduated from the National Veterinary School of Lyon in 2006. After a rotating large-animal internship at Ghent University in Belgium, she went on to her radiology residency at Ghent University and became board certified in 2011. She joined IDEXX Telemedicine Consultants in 2012, and she continues to work in private practice in Switzerland. During her free time, you will find her in the stables with her young warmblood mare or spending time with her husband and dog.

Michael Q. Bailey, DVM, DACVR

Dr. Bailey is originally from New Jersey, where he completed his undergraduate degree at Rutgers University. He earned his DVM from historic Tuskegee University in Alabama and then completed a small-animal rotating internship and radiology residency at Michigan State University. Before joining IDEXX Telemedicine Consultants, he served on the faculty at Tuskegee University, Michigan State University, and The Ohio State University. He spent 5 years supplying imaging services in a Pittsburgh, PA, referral and ER facility and was lead radiologist for a large (950+) hospital national practice. When not working he likes traveling with his wife, rebuilding cars and motorcycles, and photography. He is also an active member and officer of his state veterinary medical association and has recently been elected to the board of directors of the American Veterinary Medical Association. After the loss of his long-time Labrador retriever companion, he and his wife have recently adopted a shepherd cross named Blaze.

Elizabeth (Lizza) Baines, VetMB, DVR, DECVDI

Dr. Baines graduated from the University of Cambridge in England and spent 8 years in small-animal practice before returning to Cambridge for her residency training. In 2000, she achieved the Royal College of Veterinary Surgeons diploma in veterinary radiology and became a diplomate of the European College of Veterinary Diagnostic Imaging in 2001. She remained

on the faculty of Cambridge Veterinary School for an additional 2 years before moving to the Royal Veterinary College, University of London, until 2011. She then moved to a multidisciplinary private practice in the West Midlands. She lives in Warwickshire with her husband, two daughters, and four cats.

Elizabeth (Beth) Ballegeer, DVM, DACVR

Dr. Ballegeer graduated from Notre Dame University, where she completed her BS in biology in 1997. She then attended the University of Wisconsin, where she earned her DVM in 2001. In 2002, Dr. Ballegeer completed a rotating small-animal surgery and medicine internship at the Animal Medical Center in New York City. She returned to Madison, WI, for her residency at the University of Wisconsin in 2002–2006. She worked at a referral practice in Round Rock, TX, in 2006–2009, and then returned to academia at Michigan State University (MSU) in East Lansing. She currently works at the MSU College of Veterinary Medicine as an assistant professor and at IDEXX providing teleradiology services. She has two young children, two elderly pets, and a pistol tuxedo kitten named Morris. She also enjoys singing and reading when she gets the chance, as well as doing a couple of gigs a year with a local MSU band called Fatal Plus.

Rebecca Baumruck, DVM, DACVR

Dr. Baumruck grew up in northern Nevada and received her bachelor's degree in animal science from the University of Nevada, Reno. She attended veterinary school at Mississippi State University College of Veterinary Medicine and graduated in 2012. After completing veterinary school, Dr. Baumruck completed a rotating equine internship at Oklahoma State University Center for Veterinary Health Sciences, followed by both a specialty internship and residency in diagnostic imaging at Louisiana State University School of Veterinary Medicine. She became board certified by the ACVR in September 2018 and joined the IDEXX Telemedicine Consultants team in November 2018. Dr. Baumruck and her husband enjoy traveling, photography, hiking, horseback riding, and being in the great outdoors.

Alexandra Bratton, BSc, DVM, DACVR

Dr. Bratton grew up in Toronto, Canada, and received her undergraduate degree from the University of Victoria, British Columbia, Canada. After working for the British Columbia Ministry of Environment and the Canadian Forest Service, Dr. Bratton moved to Saskatchewan to earn her DVM at the Western College of Veterinary Medicine in Saskatoon. Following several years working in both community and emergency referral practices in Toronto, she completed a small-animal rotating internship and residency in radiology at the Ontario Veterinary College in Guelph, Canada, and became board certified by the American College of Veterinary Radiology in 2014. Following her residency, she moved to Houston, TX, to work at a busy referral hospital. Missing home and the West Coast lifestyle, Dr. Bratton moved back to British Columbia, Canada, to work in a growing referral hospital in the Fraser Valley before joining IDEXX Telemedicine

Consultants in March 2017. Dr. Bratton now lives in a small town in the coast mountains and enjoys hiking, birding, kayaking, and snowshoeing.

Erin Brinkman, DVM, DACVR

Dr. Brinkman grew up in northern Alabama and received her undergraduate and veterinary degrees from Mississippi State University. After veterinary school, she completed a small-animal rotating internship at the University of Georgia. Following the internship, Dr. Brinkman spent a year as an emergency veterinarian in St. Petersburg, FL. She then completed a diagnostic imaging residency at Kansas State University and became board certified by the ACVR in 2008. After her residency, Dr. Brinkman joined the faculty at Mississippi State University, where she was the service chief of the diagnostic imaging service and residency director until December 2019. Dr. Brinkman joined IDEXX Telemedicine Consultants in the fall of 2019 and became a full-time IDEXX radiologist in January of 2020. She remains in Starkville, MS, and enjoys boating on the Tombigbee River, all things college football, watching live music, and traveling with friends.

James C. Brown, Jr., DVM, MS, DACVR

Dr. Brown received his DVM from the University of Georgia in 2003. He completed a small-animal medicine and surgery internship in 2004 and his radiology residency at The Ohio State University. He became board certified by the American College of Veterinary Radiology in 2007. For 6 years, Dr. Brown served as a clinical assistant professor in diagnostic imaging at North Carolina State University, where he was involved in resident training, teaching, and research prior to joining IDEXX Telemedicine Consultants in 2013. He is actively involved in the American College of Veterinary Radiology, serving as a committee chair and member within the organization. He lives in the Raleigh, North Carolina, area with his wife and two young sons. When not working, he enjoys staying fit and running, going to the beach, and watching college basketball and football.

Kelsey Brust, DVM, DACVR

Dr. Brust earned her undergraduate degree and DVM at the University of California, Davis. After graduating in 2010, she completed a rotating internship at California Veterinary Specialists in Carlsbad and Murietta. She then completed a diagnostic imaging residency; training at the University of Illinois and UC Davis. She joined IDEXX after her residency training. She lives in Davis, CA, and continues to be involved at UC Davis as a clinical instructor. In her spare time, she enjoys hiking in the Sierras with her husband, exploring Sonoma wine country, and cuddling on the couch with her two cats.

Ana Caceres, BSA, DVM, DACVR

Dr. Caceres completed two bachelor's degrees at the University of Puerto Rico. She was then immediately accepted to Tuskegee University School of Veterinary Medicine where she graduated

magna cum laude. After 2 years of working in private practice, she was accepted as a diagnostic imaging resident at the University of Pennsylvania and became a diplomate of the American College of Veterinary Radiology in 2006. After the conclusion of her residency, Dr. Caceres stayed on staff as a radiologist at the University of Pennsylvania. She has special interest in computed tomography of the pancreas and kidneys, as well as musculoskeletal imaging.

Matt Cannon, DVM, DACVR

Dr. Cannon was born and raised in Houston, TX, and attended Texas A&M University, where he obtained his undergraduate degree in biomedical science, graduating summa cum laude. He received his DVM from the University of California, Davis, and was a member of the Phi Zeta Honor Society. He completed a rotating small-animal internship at The Ohio State University before returning to UC Davis for his diagnostic imaging residency. He became board certified in 2009. Dr. Cannon has been with IDEXX since 2010, and also continues to maintain a busy private practice in Austin, TX. He enjoys outdoor activities, including fishing, hiking, and kayaking, in the Texas Hill Country. He is also an avid college sports fan. However, his favorite hobby is spending time with his wife, children, and hyperactive dog.

Stacy Cooley, DVM, DACVR

Dr. Cooley is a consultant for IDEXX and also works as an assistant professor of diagnostic imaging at the Carlson College of Veterinary Medicine at Oregon State University. She graduated from Oregon State University Carlson College of Veterinary Medicine with her DVM in 2010 and spent 2 years as an intern there before leaving for Ithaca, NY, where she completed her diagnostic imaging at Cornell University. She is currently the residency director for the ACVR Diagnostic Imaging Residency Program at Oregon State University and loves training residents and teaching students! She met her husband during undergraduate training in 2001 and they have enjoyed playing in the outdoors with their dogs ever since. They love traveling, hiking, backpacking, biking, and eating!

Cassandra Coulter, DVM, DACVR

Dr. Coulter grew up in greater Cleveland, OH, and received her undergraduate degree from Brown University. After receiving her doctorate of veterinary medicine from The Ohio State University College of Veterinary Medicine, she completed a rotating internship in small-animal medicine and surgery in New York City. Dr. Coulter then pursued a diagnostic imaging residency at the Louisiana State University School of Veterinary Medicine. During her residency, Dr. Coulter focused her residency project on sonographic pancreatic imaging and its varied appearance. Following the completion of her residency, Dr. Coulter attained her board certification as a member of the American College of Veterinary Radiology and relocated back to the Midwest. In her free time, she enjoys attending the theatre, orchestra, concerts and traveling, both within the United States and abroad.

Aditya Davé, DVM, DACVR

Dr. Davé grew up in Los Angeles, CA, and received his undergraduate degree from the University of California, Berkeley. He attended the University of California, Davis, for his doctorate of veterinary medicine and completed a small-animal rotating internship at The Ohio State University. Dr. Davé then attended a 3-year diagnostic imaging residency at the University of Minnesota and became a diplomate of the American College of Veterinary Radiology in 2018. After his residency, he moved to Portland, OR, and joined the IDEXX teleradiology team shortly thereafter. In his free time, he enjoys long-distance running, hiking, and spending time with friends and family.

Frederic David, DEDV, MVetMed, DECVDI

Dr. David is a native of Paris, France, and attended veterinary school in Toulouse, France. After graduating, he completed an equine internship at Marion duPont Scott Equine Medical Center in Virginia and a radiology internship at Ross University in the Caribbean. He underwent residency training at the Royal Veterinary College in London, United Kingdom, and then became an assistant professor at the University of Minnesota for 4 years. He joined IDEXX in 2016. He and his wife Nadine live in Paris (for now). During his free time, he enjoys traveling, historical martial arts (basically sword fighting!), and watching rugby.

Jane Day, BVSc, MVS, FANZCVS

Dr. Day grew up on a large cattle and sheep property in outback Australia, and when she got into veterinary school, her father decided they would muster on horseback rather than motorbikes to ensure she would become some sort of large-animal veterinarian. After graduating, she worked in Australia and the United Kingdom before deciding to specialize in radiology. She took the Australian and New Zealand College membership examinations in radiology and then worked as a clinical instructor at Queensland University before moving to James Cook University in Townsville, where she was section head for several years. During this time, she did 6 months on an alternate-track residency with Dr. Robert Pechman and Dr. Robert Bahr at Oklahoma State University. She completed her residency at Melbourne University, after which she took up a senior lectureship position at Murdoch University in Perth. She currently works in a private practice in Perth and began reading radiology cases for IDEXX Telemedicine Consultants in 2017.

Constance E. De Haan, DVM, MA, DACVR

Telemedicine Medical Director

Dr. De Haan received her BS in bioresource science and genetics from the University of California, Berkeley. She received her DVM from the University of California, Davis, in 1986. After 2 years in general practice, Dr. De Haan completed a residency in radiology at Washington State University, and practiced radiology in the San Francisco Bay area for 20 years. She was an owner of Animal Care Center of Sonoma County and then continued on as medical

director when the practice was acquired by VCA in 2008. In 2013, she completed a master's degree in organization development at Sonoma State University and her somatic coaching certificate. Dr. De Haan is pleased to bring this experience and training to her role as medical director for IDEXX Telemedicine Consultants, working with this wonderful global team of veterinary radiologists.

Tod Drost, DVM, DACVR

Dr. Drost, a diplomate of the American College of Veterinary Radiology, joined IDEXX Telemedicine Consultants in 2014. He graduated from the University of Florida with a DVM in 1991 and completed his radiology residency at North Carolina State University in 1995. Dr. Drost has more than 20 years of experience as a clinical radiologist and educator at the Oklahoma State University and, primarily, The Ohio State University, colleges of veterinary medicine. He was on the American College of Veterinary Radiology (ACVR) Executive Council from 2004–2009, serving as president in 2008. Dr. Drost is currently the executive director of the ACVR. He and his wife have three children and live on a small farm in central Ohio. In his spare time, Dr. Drost enjoys the outdoor work that comes with owning a farm and critters, cooking, and watching football.

Ilva Drumm, DrMedVet, MS, DACVR, FTA bildgebende Diagnostik

Dr. Drumm grew up near Hamburg in northern Germany and graduated from veterinary school in Munich in 2008. After moving to Lexington, KY, for a rotating internship at the Rood and Riddle Equine Hospital, she completed a diagnostic imaging residency at The Ohio State University in Columbus and earned board certification as a veterinary radiologist of the American College of Veterinary Radiology. Dr. Drumm returned to Germany in 2013 as the senior radiologist of one of the largest small-animal hospitals in the country before joining IDEXX in 2016. She enjoys all aspects of diagnostic imaging, particularly cross-sectional imaging and contrast studies.

Michelle Ellison, VMD, DACVR

Dr. Ellison received her VMD from the University of Pennsylvania in 2007 and completed an internship in large-animal medicine and surgery at the University of Georgia the following year. She then went on to complete a radiology residency at the University of Wisconsin–Madison, attaining board certification in 2011. Prior to joining IDEXX as a teleradiologist in 2015, she taught diagnostic imaging for 2.5 years at Louisiana State University. She currently resides in the Atlanta metro area with her husband and their two cats. In her spare time, she enjoys baking, cross-stitching, day hiking, and social ballroom dance.

Lee Emery, DVM, DACVR

Maria Evola, DVM, MPH, DACVR

As an undergraduate, Dr. Evola attended Hendrix College in Arkansas, studying Spanish and biology. She returned home to the Midwest for veterinary school and received her DVM and MPH from the University of Missouri. She completed a small-

animal rotating internship in New Jersey, a diagnostic imaging specialty internship in Los Angeles, and a diagnostic imaging residency at North Carolina State University. Dr. Evola became a diplomate of the American College of Veterinary Radiology in 2016. She lives in Raleigh, North Carolina, with her partner, their two improvisational parrots, and their dog Marlin. On sunny days, she enjoys urban hiking with Marlin, who is the Platonic ideal of what a dog should be.

Erica L. Fields, DVM, DACVR

Dr. Fields received her DVM from North Carolina State University (NCSU) College of Veterinary Medicine. Following a rotating small-animal internship at VCA Aurora and VCA Berwyn Animal Hospitals, she worked as a general practitioner in the Atlanta, GA, and Greensboro, NC, areas. She returned to NCSU for a diagnostic imaging residency, attaining board certification in 2010. Dr. Fields lives on a farm and livestock sanctuary outside Winston-Salem, NC, with her husband, daughter, and a menagerie of large and small animals.

Jennifer Fowler, BSc, DVM, MSc, DACVR

Dr. Fowler grew up in the Northeast on a hobby farm not far from New York City. She attended the SUNY College at Brockport for her undergraduate degree. Dr. Fowler eventually attended the Atlantic Veterinary College in Prince Edward Island Canada for her DVM. She completed a large animal medicine and surgery internship at Texas A&M University and continued on to a dual masters and diagnostic imaging residency at Oregon State University. Following residency, Dr. Fowler relocated to Iowa State University, where she worked as a faculty radiologist for 2 years. She completed ACVR Board certification in 2018. Dr. Fowler made the move to Northeast Arkansas in July 2019 and joined IDEXX Telemedicine Consultants. Outside of work she enjoys spending quality time with her two dogs, reading, and gardening.

Paul Frank, DVM, DACVR

Dr. Frank graduated from North Carolina State University in 1991 and earned his DVM in 1995. Following graduation, Dr. Frank completed a radiology residency at the University of Georgia and became a boarded veterinary radiologist in 2002. Dr. Frank was a faculty radiologist for 6 years at the University of Georgia, was a staff radiologist at an emergency and specialty center for 2 years and has been a full-time teleradiologist since 2010. He joined the IDEXX team in the fall of 2014 as a full-time consultant. Dr. Frank lives in North Carolina with his wife, son, and daughter.

Kathy Gelatt, DVM, DACVR

Dr. Gelatt received her DVM from North Carolina State University in 1993 and completed her radiology residency at the University of Florida in 1997. She worked at the University of Minnesota in the radiology department for about 5 years and then worked in a private practice group in Cleveland, OH, for 4 years. In 2006 she moved back to Florida, and in 2007 she started her own radiology private practice, North Florida Veterinary Radiology, and began consulting for IDEXX Telemedicine Consultants. When not

cheering for the Gators, she enjoys playing with pets, gardening, reading, and going fishing and boating with her husband and son.

Tommaso Gregori, DVM, DECVDI, MRCVS

Dr. Gregori grew up in Piacenza in the northern part of Italy and studied veterinary medicine at the University of Parma. After graduating in 2008, he spent a year working in a shelter dedicated mainly to rescuing galgos (Spanish greyhounds) in Spain. He later moved to the United Kingdom to work in general practice. After completing a rotating internship at the University of Bristol, he trained in diagnostic imaging at the Royal Veterinary College, University of London, and became a diplomate of the European College of Veterinary Diagnostic Imaging in 2015. He lives with his partner, Ana, and their three cats, Oscar, Tito, and Coco, in London. In his spare time, he likes to travel back to Italy and Spain. He loves playing guitar and cooking.

Jennifer Hanson, DVM, DACVR

Dr. Hanson received her DVM from Tufts University in 1989. After an internship at Angell Animal Medical Center in Boston and 2 years in small-animal practice, she returned to Tufts for her radiology residency. She became board certified and joined VDIC in 1995. Additional duties at VDIC included managing the quarterly newsletter and acting as the resident director for VDIC's second resident, IDEXX's own Kristy Barksdale. She has published several peer-reviewed articles and spoken at local and national meetings. Dr. Hanson has been with IDEXX since the acquisition of VDIC in 2009. Outside of work, she enjoys cooking, reading, crossword puzzles, white-water rafting, and otherwise taking in the beauty of the Pacific Northwest with her husband and two teenage daughters.

Jonathan Hayles, DVM, MS, DACVR

Dr. Hayles was born in Rochester, NY, but eventually landed in San Diego, CA, where he attended the University of California for his undergraduate degree in animal physiology and neuroscience. He earned his veterinary degree at the University of California, Davis, followed by a 1-year general rotating internship at the Veterinary Medical and Surgical Group (VMSG) in Ventura, CA. Dr. Hayles completed his imaging residency and veterinary master of science at Washington State University. Dr. Hayles joined IDEXX Telemedicine Consultants in 2012 as a full-time teleradiologist. He and his wife Andrea, two sons, dog, and cat are currently living in San Diego.

Larry Hoscheit, DVM, BSc, MS, DACVR

Jennifer Johnson-Neitman, DVM, DACVR

Dr. Johnson-Neitman received her undergraduate degree in animal science at Oklahoma State University (OSU) in 1999. She continued at OSU and received her DVM in 2004. She did a 1-year internship followed by a 1-year fellowship at OSU in diagnostic imaging from 2005–2007. Dr. Johnson-Neitman completed her residency in diagnostic imaging and radiology at Kansas State University College of Veterinary Medicine in 2010. She became a diplomate of the American College of Veterinary

Radiology in 2010, the same year she completed her residency. She joined IDEXX Telemedicine Consultants in early 2013 after spending time working as a radiologist in both academia and private specialty practice.

Nathan Keppie, DVM, MS, DACVR

Dr. Keppie obtained his DVM from the Atlantic Veterinary College at the University of Prince Edward Island in Charlottetown, PEI, Canada, in 2001. He went on to complete a 1-year internship in large-animal medicine at the University of Saskatchewan in 2002. Dr. Keppie then completed a residency in radiology and a master's degree at Michigan State University in 2005. He joined VDIC as a teleradiologist in 2005 and worked with them through their transition to IDEXX. Dr. Keppie lives in Portland, ME, and enjoys sailing Casco Bay and eating the best seafood around. He and his wife, Danielle, have four geriatric pets: their German shepherd Fiji and cats Scully, Pippin, and Little Cat.

Kate Kerrigan, DVM, DACVR

Dr. Kerrigan is a diplomate of the American College of Veterinary Radiology. She graduated from the University of Illinois College of Veterinary Medicine and completed a small-animal rotating internship at the University of Pennsylvania. She returned to Illinois to complete her radiology residency and began consulting for IDEXX as a teleradiologist in 2015. Dr. Kerrigan is a Connecticut native but currently resides in Princeton, New Jersey, and works full-time in private practice. In her time off, she enjoys spending time with her husband and dog (a bearded collie named Mason), exploring the outdoors, drinking wine, running, cooking, reading, and watching documentaries.

Jennifer Kinns, BSc, VetMB, DECVDI, DACVR

Dr. Kinns graduated from the University of Cambridge veterinary school in England and spent 2 years in practice before moving to the United States to complete her residency training at the University of Pennsylvania. In 2007, she became a diplomate of the European College of Veterinary Diagnostic Imaging and the American College of Veterinary Radiology. She was on the faculty at Michigan State University for 3 years, where she ran the residency training program. In 2010, a move to IDEXX meant that she could go home to Scotland to be closer to family and friends. She is currently on the examination committee for the European radiology diploma. She lives in rural Perthshire with her husband, two children, three dogs, a cat, and some chickens.

Bob Kramer, DVM, DACVR

Dr. Kramer received his BS (1983) and DVM (1987) degrees from the University of California, Davis. Following 3 years practicing primarily emergency medicine, he trained in diagnostic radiology and radiation oncology at North Carolina State University's College of Veterinary Medicine from 1990–1993. He was certified by the American College of Veterinary Radiology in diagnostic radiology in 1993 and in radiation oncology in 1997. In 1994 Dr. Kramer established a private radiology referral practice in Seattle, sold it in 2014, and practiced for the new owners through

2017. He joined IDEXX Telemedicine Consultants in January of 2018. Dr. Kramer served as adjunct faculty in the Department of Comparative Medicine at the University of Washington School of Medicine from 1996–2017 and has served as adjunct clinical radiology faculty at Tuskegee University College of Veterinary Medicine since 2017. In addition to practicing part-time with IDEXX, Dr. Kramer and his wife, Sharon, manage their barn and 15 acres on Whidbey Island in Puget Sound, where they labor on behalf of their two horses and five less costly pets.

Dave Kunz, DVM, DACVR

Dr. Kunz's first degree is in technical theater. After having worked on numerous productions and national tours, he chose to pursue a career in veterinary medicine. After receiving his DVM from the University of Missouri–Columbia in 2001, he practiced emergency medicine in the St. Louis area and completed his radiology residency at the University of Missouri in 2006. Dr. Kunz came to IDEXX after having worked as a radiologist at a specialty hospital near Chicago. Dr. Kunz enjoys all aspects of radiology with a special interest in ultrasound.

Christelle le Roux, BVSc (Hons), MMedVet (Diag Im)

Dr. le Roux grew up in South Africa and spent some of her childhood years living in the United States. She received her veterinary degree from Onderstepoort (University of Pretoria) in South Africa, and then spent 6 years in small-animal private practice. She returned to complete a residency in diagnostic imaging again through Onderstepoort, and she spent some time in an externship at Purdue University in Indiana. She received her South African board certification in 2016. She joined IDEXX Telemedicine Consultants in July 2017. Dr. le Roux is currently based part-time between Abu Dhabi with her husband and in South Africa. She has a passion for dancing and piano as well as spending time outdoors with the dogs.

Matthew Lemon, DVM, DACVR

Dr. Lemon grew up on Prince Edward Island, Canada, and received his undergraduate and veterinary degrees from the University of Prince Edward Island. Following a small-animal rotating internship at a private referral hospital in Toronto, he continued on to a residency in diagnostic imaging at Michigan State University and became board certified by the American College of Veterinary Radiology in 2015. Dr. Lemon then spent 2 years working in a teleradiology and mobile ultrasound practice in Seattle, WA, before joining IDEXX Telemedicine Consultants. Now based in Portland, ME, Dr. Lemon and his family enjoy the outdoors, hiking, skiing, scuba diving, sailing, and seeing live music on time off.

Sofija Liles, DVM, MS, DACVR

Dr. Liles graduated from Duke University in 1996, where she received her BS degree in biology and environmental sciences. She then attended Auburn University, where she received her DVM in 2002. In 2003, Dr. Liles completed a small-animal surgery and medicine rotating internship at Sonora Veterinary Specialists.

Before joining VDIC, now IDEXX Telemedicine Consultants, she completed her diagnostic imaging residency at North Carolina State University. Dr. Liles conducted her research project on sonography of parathyroid glands in dogs.

Annalisa P. Liotta, DVM, MSc, PhD, DECVDI

Dr. Liotta is originally from Italy, where she completed her DVM degree. Following few years in private practice in Italy, she moved to Liege, Belgium, where she completed a residency program (small-animal track) in 2015. After attaining board certification, she completed a PhD research project on the interventional radiology of the lumbosacral spine in dogs. In 2016, she left Belgian University to join IDEXX and work in private practice. She currently resides in the south of Italy and in her spare time enjoys traveling, photography, family, and food.

Paul Mahoney, BVSc (Syd), DVR, DECVDI, CertVC, FHEA, MRCVS

Dr. Mahoney graduated from the University of Sydney, and after several years in mixed- and small-animal practice in both Australia and the United Kingdom, he completed his radiological training at the Royal Veterinary College in London. He has spent over 20 years working as a radiologist both in university and in small-animal referral practice and is now enjoying farm life in the Warwickshire countryside while working for IDEXX Telemedicine Consultants.

Alyce Marks, DVM, DACVR

Dr. Marks received her DVM from Louisiana State University in 2009. She then completed a 1-year rotating small-animal internship at Auburn University College of Veterinary Medicine. Dr. Marks went on to her diagnostic imaging residency at the University of Tennessee College of Veterinary Medicine and became board certified in 2013. She worked in private practice in Houston, TX, for 1 year before deciding to move back to Louisiana. She joined IDEXX Telemedicine Consultants in 2014. When not working, she enjoys spending time with her husband and their numerous pets and traveling.

Holly McCort, DVM, DACVR

Dr. McCort is originally from East Tennessee, where she completed her undergraduate and veterinary degrees from the University of Tennessee in Knoxville. After obtaining her DVM in 2003, she completed a rotating small-animal internship and radiology residency at Auburn University. She became board certified in 2007. Before joining IDEXX Telemedicine Consultants, she worked as a radiologist for 8 years in the San Diego area. When not working, Dr. McCort likes to spend time with her family, including her husband; their cat, Corduroy; and their spotty dogs, Miles and Midge. She enjoys crocheting, photography, and taking the dogs on hikes and beach romps.

Jesse K. Nagy, DVM, MS, DACVR

Dr. Nagy graduated from Ross University School of Veterinary Medicine in 1997. He was a small-animal practitioner until

beginning a radiology internship and residency at the University of Illinois in 2000. After completing his residency, he became a member of the faculty at the University of Missouri. He stayed on as faculty for 6 years and then did part-time teleradiology and on-site work at a specialty hospital. He now works for IDEXX as an imaging consultant. In his free time, he enjoys lifting weights and coaching hockey. He keeps busy with his wife, two children, four dogs, four cats, goats, two llamas, two alpacas, chickens, and a cow.

Anna Newitt, BVSc, DVDI, DECVDI, MRCVS

Dr. Newitt graduated from Liverpool University in 1998 and then spent 5 years in first-opinion practice before undertaking a residency in diagnostic imaging at both Bristol and Liverpool universities, gaining the Royal College of Veterinary Surgeons diploma in diagnostic imaging in 2006 and the European Veterinary Diagnostic Imaging diploma in 2008. She continued as a lecturer at Liverpool University until 2009 before leaving to join private practice. She joined IDEXX in 2009 and continues to help her husband in his veterinary imaging business, providing periparturient imaging services to both referral and first-opinion practices. In her spare time, she enjoys competing in triathlons and ice skating with her family.

Lauren Newsom, DVM, DACVR

Dr. Newsom is originally from Michigan, graduating from Michigan State University with a BS in zoology in 2005 and a DVM in 2009. She practiced small-animal emergency medicine in Michigan and Colorado for 6 years before starting the diagnostic imaging residency at Oregon State University. Upon board certification and completion of the residency program, she transitioned to clinical faculty at Oregon State in July 2019. She is a part-time consultant for IDEXX and ImagePet. She and her husband spend their free time with their two love-a-bulls or enjoying golf, wine, hiking, and many other outdoor activities, rain or shine.

Mark Owen, BVSc, DECVDI, FANZCVS, MRCVS

Dr. Owen graduated from Massey University in New Zealand and spent some time in general mixed practice before undertaking a diagnostic imaging residency spread between Massey University, the Royal Veterinary College in London, and Tufts University in Boston. He successfully completed specialist examinations in diagnostic imaging for the Australian and New Zealand College of Veterinary Scientists (ANZCVS) and the European College of Veterinary Diagnostic Imaging. After working for many years in the diagnostic imaging department at Massey University Veterinary Teaching Hospital, he started his own imaging business in New Zealand. He has been an IDEXX consulting radiologist since 2008. He has previously been chief examiner for the Australian and New Zealand College and also president of the Australasian Association of Veterinary Diagnostic Imaging (AAVDI). He is actively involved in both undergraduate and postgraduate teaching throughout Australasia. Dr. Owen participates in Ironman* triathlons and other crazy ultra-endurance events and loves to get out on his bike or go for a run when time permits.

Sarah Pownder, DVM, DACVR

Dr. Pownder graduated from veterinary school at Washington State University and went on to complete her diagnostic imaging residency at Cornell University in 2010. She has a strong interest in musculoskeletal radiology with a focus on magnetic resonance imaging. Dr. Pownder grew up almost exclusively in the Pacific Northwest but is now living on the East Coast. In addition to work, she spends her spare time traveling and gardening. She lives with her two Persian cats, Nestle and Cadbury. She joined IDEXX Telemedicine Consultants in 2014.

Joan Regan, VMD, DACVR

Dr. Regan has lived most of her life in Massachusetts. After attending veterinary school in Philadelphia and spending a year in Davis, CA, doing an internship in large-animal medicine, she returned to Massachusetts to work in a mixed-animal practice in North Adams. She completed her radiology residency at the Pennsylvania State University and then stayed on as a lecturer in radiology for an additional 2 years. In 1996, she moved back to Boston as a staff radiologist at what was then called Angell Memorial Animal Hospital, where she spent nearly 20 years at her dream job. After a slightly early retirement from Angell, she joined IDEXX Telemedicine Consultants in 2016 as a radiologist. When not reading radiographs, she enjoys choral singing and has performed with choral groups everywhere she has lived. She is also an enthusiastic cook/baker, traveler, walker, reader, and advocate for the benefits of living in Boston.

Nic Rousset, BVSc, DECVDI

Dr. Rousset completed his BVSc at Onderstepoort, South Africa, and subsequently spent several years in general practice in Cape Town and the United Kingdom. He completed his residency in diagnostic imaging at the University of Cambridge and obtained the European Veterinary Diagnostic Imaging diploma in 2013. He moved to Alberta, Canada, in 2014 and currently works at a private referral practice in Calgary. He joined IDEXX in 2016. He spends his free time in the mountains near his home.

Michael Roy, DVM, MS, DACVR

Dr. Roy received his DVM from the University of California, Davis, in 2000. He completed a rotating internship in small-animal medicine and surgery in Tucson, AZ, in 2001, where he fell in love with the desert. Dr. Roy served as a faculty lecturer in small-animal emergency medicine at UC Davis in 2002–2004. He completed his residency in radiology at Colorado State University, serving as chief resident, and became board certified in 2007. He was the staff radiologist at Veterinary Specialty Center of Tucson from 2007–2013. He became a full-time member of the IDEXX team in 2013 after having been a consultant for VDIC/IDEXX since 2008. Dr. Roy resides in Tucson with his wife, Celeste, who is a board-certified veterinary dentist and an IDEXX Telemedicine Consultants team member. They share their home with their chow chows, Nublet and Placebo, who enjoy ruling the house.

Stephanie Rudich, DVM, DACVR**Jeffrey Ruth, DVM, DABVP (Canine/Feline), DACVR**

Dr. Ruth grew up in Texas and received undergraduate and DVM degrees from Texas A&M University. After receiving his veterinary degree, he went into private small-animal practice, earning certification by the American Board of Veterinary Practitioners in canine and feline practice. Then Dr. Ruth completed an internship in diagnostic imaging at the Louisiana State University School of Veterinary Medicine before continuing his training in a radiology residency at Purdue University. Dr. Ruth became board certified by the ACVR in 2013. Following residency, he relocated to Virginia and served on faculty as a clinical track radiologist at the Virginia-Maryland College of Veterinary Medicine for 5 years before joining IDEXX Telemedicine Consultants in July 2018. Dr. Ruth currently enjoys life in Colorado, taking advantage of the mountains to enjoy running and fly fishing.

Rochelle Salwei, DVM, DACVR

Dr. Salwei completed her residency at the University of Wisconsin in 2004. Prior to that, she lived in Sacramento, CA, and worked a year in general practice after finishing a small-animal medicine and surgery internship at the Sacramento Animal Medical Group. Her veterinary training was at Kansas State University College of Veterinary Medicine. In 2004, Dr. Salwei joined VDIC, now IDEXX Telemedicine Consultants, as an in-house radiologist who also performs in-house and road ultrasound services. In her spare time, she is an avid dog agility competitor. She trials competitively with her border collie, Digsy, and has a second dog in training named Tate.

Mason Savage, DVM, DACVR

Dr. Savage is originally from Savannah, GA, and received his bachelor's degree (2007) and DVM (2011) from the University of Georgia. He completed a 1-year rotating small-animal internship at North Carolina State University in 2012 followed by a 3-year diagnostic imaging residency at North Carolina State University in 2015. He became board certified by the American College of Veterinary Radiology in 2015. He lives in Atlanta, GA, with his wife, Katie, and their leggy blonde dog, Miley. During his free time, he enjoys soaking up all the arts and culture that Atlanta has to offer, spending time with his friends and family (including his amazing nephew and nieces), and any outdoor activities that seem reasonable for the season.

Irene Schaafsma, DVM, MVR, DECVDI

Dr. Schaafsma is originally from The Netherlands, where she finished both her veterinary degree and radiologist training. After 2 years at the Swedish University of Agricultural Sciences in Uppsala and 7 years in private referral practice in the United Kingdom, she joined IDEXX Telemedicine Consultants as a teleradiologist in 2014. Currently she divides her work time between IDEXX and the Animal Health Trust in Newmarket (UK). She lives in the countryside of Suffolk and enjoys hiking, bicycling, and running; however, her favorite hobbies are cooking, photography, and traveling.

Amy Schkeeper, DVM, MS, DACVR

Dr. Schkeeper grew up in the suburbs of New Jersey and received her undergraduate degree from Rutgers University, Cook College (now known as SEBS). She traveled around the country beginning with veterinary school at Ohio State University, a small-animal rotating internship at the Pet Emergency and Specialty Center in San Diego, a radiology internship at the Veterinary Imaging Center of San Diego, and ending with residency training combined with a master's program at Auburn University. Dr. Schkeeper practiced and taught for 2 years at her alma mater, The Ohio State University, prior to joining the IDEXX team from her hometown in New Jersey in July 2018. Dr. Schkeeper and her dog Happy spend most of their free time visiting her nieces and nephews.

Layla Shaikh, DVM, DACVR

Dr. Shaikh is originally from central New Jersey, where she went to Rutgers University for undergraduate school, and received her DVM from the University of Pennsylvania. Following veterinary school, Dr. Shaikh practiced emergency medicine in a referral hospital in the Philadelphia region for 4 years before getting married and moving to California, where she practiced both emergency medicine and general small-animal medicine in the San Francisco Bay area. One year later, Dr. Shaikh began her radiology residency at the University of Georgia. After finishing the residency, she and her husband relocated to the northern Atlanta region, where they currently live with their two beautiful children and a sweet old whippet, Solveig. She enjoys spending time with her growing family and her husband and playing tennis and golf in her free time.

Kristina Simone, VMD, DACVR

Dr. Simone received her VMD from the University of Pennsylvania School of Veterinary Medicine. She then completed a rotating internship at the Center for Animal Referral and Emergency Services followed by a diagnostic imaging internship at the Veterinary Specialty and Emergency Center. In 2013, she moved to Raleigh to attend North Carolina State University's College of Veterinary Medicine, where she completed her residency in diagnostic imaging. She achieved board certification from the American College of Veterinary Radiology in 2016.

Kate Sippel, DVM, DACVR

Dr. Sippel earned her BA in biology at Colorado College in Colorado Springs and her DVM degree from the University of Illinois in Urbana. She completed a small-animal rotating internship at a private practice in San Diego, CA, and then spent a year working in small-animal emergency medicine in Toledo, OH. She completed her residency in diagnostic imaging at Michigan State University. Her research interests focus on the cervical facet joints of the horse as well as large-animal imaging in general. She joined IDEXX in December 2014. In her spare time, she enjoys yoga and riding her two horses at United States Equestrian Federation A- and AA-rated shows across the country, competing in jumper events.

David Szabo, DVM, DACVR

Dr. Szabo grew up in New York City and graduated from Cornell University with a BA in English before returning to Cornell for veterinary school. Following graduation from veterinary school, he lived in Europe for 2 years, doing research in Switzerland and a rotating internship in England, before returning to the United States and completing another rotating internship in New York City. After completing a radiology residency at Tufts University in 2015, he moved to Los Angeles to work in a private referral practice. Dr. Szabo joined IDEXX as a telemedicine consultant in 2016. He lives with his wife and young son. In his free time, he enjoys spending time with his family, traveling, and exploring the West Coast.

Donald E. Thrall, DVM, PhD, DACVR (Radiology, Radiation Oncology)

Dr. Thrall graduated from the School of Veterinary Medicine at Purdue University and completed a radiology residency and MS and PhD degrees at Colorado State University. He has held faculty positions at the University of Georgia, University of Pennsylvania, Ross University, and North Carolina State University. He is currently an emeritus professor at North Carolina State University as well as a radiologist and quality control officer in teleradiology with IDEXX Telemedicine Consultants. Dr. Thrall is board certified by the American College of Veterinary Radiology in both diagnostic radiology and radiation oncology, and he has served as president of the college in both capacities. Dr. Thrall has authored or coauthored over 200 publications, and he served as editor of the journal *Veterinary Radiology & Ultrasound* for over 30 years. He is currently the editor of the *Textbook of Veterinary Diagnostic Radiology*, 7th edition, and coauthor, with Dr. Ian Robertson, of the *Atlas of Normal Radiographic Anatomy and Anatomic Variants in the Dog and Cat*, 2nd edition, both published by Elsevier.

Reid Tyson, DVM, DACVR

Dr. Tyson is originally from North Carolina, where he attended undergraduate school and received his DVM from North Carolina State University in 2000. He worked in small-animal private practice and emergency medicine before his radiology residency through Central Florida Veterinary Radiology. He worked as an assistant professor at Oregon State University from 2005–2007, when the school was transitioning to a 4-year program. He was an assistant professor at Virginia-Maryland Regional College of Veterinary Medicine from 2008–2014. He enjoys teaching and won numerous teaching awards during his time at Virginia Tech. He joined the IDEXX team in 2015. He is married to a fellow veterinarian and has two children, who are active sailors. He currently resides in Seabrook, TX.

Megan Uerling, DVM, DACVR

Dr. Uerling received her DVM from Texas A&M University in 2001. After a 1-year internship in equine medicine and surgery at Alamo Pintado Equine Medical and Surgical Center in Los Olivos, CA, she returned to Houston to do a 1-year imaging internship at

Gulf Coast Veterinary Specialists. From there she went back to California for a radiology residency at the University of California, Davis, which she completed in 2007. She joined VDIC later that year after moving back to Houston with her husband. In 2009, VDIC was acquired by IDEXX, where Dr. Uerling continues to work as a radiologist. When not working, Dr. Uerling enjoys spending time with her husband, son, dog, and cat, and riding and training her young warmblood jumper.

Sheryl van Staden, BVSc (Hons), MMedVet (Rad), DECVDI

Dr. van Staden graduated from the University of Pretoria in South Africa. After working in general small-animal practice for 5 years, she completed a residency and master's degree in diagnostic imaging at the same university. In 1998, she became a diplomate of the European College of Veterinary Diagnostic Imaging. Her work as a radiologist includes small-animal referral practice in South Africa and Australia, and various academic positions at University of Pretoria, South Africa, and Ross University, West Indies. She is currently a radiology consultant and continues to be involved in teaching and research at the University of Pretoria. She joined IDEXX Telemedicine Consultants as a part-time teleradiologist in January 2017. She lives in Johannesburg, South Africa, with her husband, 2 daughters, a dog and cat. She enjoys spending time with all of them and open water swimming.

Corey R. Wall, DVM, MS, DACVR

Dr. Wall earned his DVM from Colorado State University in 1999. He then did a general internship at Alameda East in Denver, CO, followed by a surgical internship at Veterinary Specialists of Nevada in Reno, NV. His love of diagnostic imaging developed during his internships, after which he worked in private practice as both an emergency doctor and a general small-animal practitioner until starting his residency in diagnostic imaging. He completed his residency in diagnostic imaging in 2010 at the University of Missouri. Following residency, he worked as an assistant clinical professor at Texas A&M University and later at Oklahoma State University. In 2018 he joined IDEXX as a full time telemedicine consultant. He has since relocated back to Utah, where he and his family enjoy the western mountains and deserts.

Stacy Winkelman, DVM, MS, DACVR

Dr. Stacy Winkelman is a Colorado native, but grew up in Northern Virginia outside of Washington, DC. She received a BA in biology and psychology from the University of Virginia in 2001 and obtained her DVM degree in 2005 from the Virginia-Maryland Regional College of Veterinary Medicine. Following graduation from veterinary school, Dr. Winkelman completed a 1-year rotating small-animal internship in medicine, surgery, and emergency at a large private practice in Charlotte, NC. She then worked as a small-animal private practitioner for 4 years before deciding to specialize in diagnostic imaging. Dr. Winkelman received a MS in biomedical sciences and completed her diagnostic imaging residency in 2013 at the Auburn University College of Veterinary Medicine. Prior to joining IDEXX, she served as an assistant professor at The Ohio State University

and worked for a private veterinary imaging group in Colorado. In her spare time, Dr. Winkelman can be found skiing, hiking, or traveling. More than anything, she enjoys spending time with family and friends, especially her husband, twin daughters, cat Ace, and dog Cooper.

Laura Ziegler, DVM, DACVR

Dr. Ziegler grew up in Albuquerque, New Mexico, and completed her undergraduate degree at the New Mexico Institute of Mining and Technology before attending the University of California, Davis, to earn her DVM. She worked as an associate in small-animal practices in California, Delaware, Maryland, and Pennsylvania while her husband, Andre, was finishing his training in poultry pathology. She was accepted into a medical imaging residency at the University of Wisconsin–Madison, completing it in 2000. She was an assistant and associate professor at the University of Minnesota for 8 years. She has one dog, two cats, and two kids. She currently lives in San Antonio, TX, where she provides mobile ultrasound services part-time. In her spare time, she enjoys a variety of fiber arts, including spinning, knitting, and weaving.
